Re: Application for Marketing Graphic Design Specialist

Dear Sebastien Derveeuw,

I am writing to express my interest in the Marketing Graphic Design Specialist position at Surrey Hospitals Foundation. As a recent graduate of Simon Fraser University's School of Interactive Arts and Technology program and a design professional with experience in marketing communications, publication design, and digital content creation, I am excited by the opportunity to support the Foundation's mission through impactful visual storytelling and community engagement.

In my current role as a Marketing Designer at Canada International Student Magazine (CISM), I create weekly email newsletters, social media graphics, and digital publications that support audience engagement and brand awareness. I collaborate closely with the marketing team to develop content strategies, execute campaigns, and deliver visually engaging communications across multiple channels. This experience has strengthened my ability to manage creative projects, maintain brand consistency, and communicate effectively with diverse audiences.

Beyond my professional experience, my leadership and volunteer roles have strengthened my collaboration, project coordination, and relationship-building skills. Having called Surrey home for over ten years, I have personally experienced the impact of our local healthcare system and the care provided through Surrey Memorial Hospital. The Foundation's mission resonates with me because I have seen firsthand how these services support families, and I would be proud to contribute my skills toward advancing healthcare in the community I call home.

Thank you for your time and consideration. I would welcome the opportunity to discuss how my design, marketing, and communication skills can contribute to Surrey Hospitals Foundation's continued impact and community engagement initiatives.

Sincerely,
